

# NightRider™

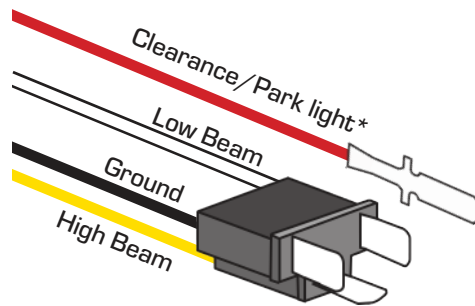

LEDs

Thank you for purchasing NightRider™ LEDs  
SAE/DOT 5x7 Sealed Beam Replacement Headlights.

*Please read before installing your new headlights.*

Before connecting your new 5x7 sealed beam replacement headlight to your vehicle's wiring harness, it is important to know that not all systems are made up the same. This light comes *plug & play* ready for most vehicles, but you might need to make some adjustments depending on your vehicle's pin-out configuration.

### NRH57HLB Plug

\* Connecting this wire to your clearance/park light circuit is optional.

Determine the function of each wire coming from your vehicle's wiring harness (eg. ground, high beam and low beam). It may be necessary to remove the spades from the headlight plug and reconfigure them to correspond with your vehicle's wiring harness.

Connection plug-in on vehicle side

Configuration corresponding with the NightRider™ NRH57HLB plug:
